Node.js

Django

Creative Problem Solving

Team management

Computer Networking

Data Structure and Complexity

OOP

## PROFILE

I am a driven individual with the ability to adapt to any situation and proven potential to grow myself and others.

## PROJECTS

### Team leader

Aug 2021 — Sep 2021  Cape Town

We were asked to implement a computer application or App for an online library system where library administrators can insert/amend/delete books/categories and print various reports (e.g., books currently on loan; books overdue for return) and users (e.g., students) can register at the library to lend/return books online

#### Duties

- Introduce clear instructions daily - so that the team members clearly understand the requirements and what needed to be done
- Set up clear standards and procedures of development
- Communicate with the lecturer when there is a misunderstanding among team members
- Motivate the team and create a good atmosphere for constructive feedback
- Track progress - I suggested that we use monday.com to track the progress of our deliverable and dates
- Implement tasks using Node.js, Bootstrap, HTML, CSS, and MongoDB

## EDUCATION

### University of the Western Cape, BSc Computer Science

Feb 2016 — Dec 2021  Cape Town

## EMPLOYMENT HISTORY

### Till Packer, Michael Viljoen

Nov 2019 – Dec 2019  Cape Town

- I was responsible to serve customer with friendliness, honesty, accuracy, politeness, and courteousness
- I was responsible for packing all items purchased by customers daily
- I was responsible for returning products not purchased by customers, back to shelves
